

発表タイトルリスト

(筆者指名は災害理学部門および都市直下地震災害(応用地質) 寄附研究部門に所属する教員のみを記載した)

発表日	発表者 (敬称略)	発表種別	発表タイトル
14日	遠田晋次	口頭	Probing past earthquakes using Coulomb stress transfer modelling -understanding the role of pre-stress and the implications for earthquake clustering
	遠田晋次☆	口頭	An overview of the 2016 Kumamoto earthquake and recent research updates
15日	遠田晋次	口頭	Paleoseismic trenching on the subsidiary surface ruptures associates with the main-shock of the 2016 Kumamoto earthquake sequence
	福島洋☆ 遠田晋次	口頭	☆ Extremely early recurrence of intraplate fault rupture following the Tohoku-oki earthquake
	福島洋☆	ポスター	Surface creep rate distribution along the Philippine fault, Leyte Island, and possible repeating of Mw~6.5 earthquakes on an isolated locked patch
16日	岡田知己☆	口頭	Seismic tomography of the 2016 Kaikoura earthquake, northern South Island, New Zealand
	遠田晋次	口頭	Overview of SSC activities in the Ikata SSHAC project
	乗松君衣☆	ポスター	Hypocenter distribution and fault distribution around June 18 2019 Yamagata-oki earthquake (Mj 6.8)
	石澤堯史	ポスター	Statistical age correlations of tsunami deposits to estimate frequency of subduction zone earthquakes
	岡田知己	ポスター	Distribution of focal mechanisms and trend of stress field in Tohoku district, NE Japan
	岡田真介	ポスター	Gravity survey and subsurface structure across the Aomoriwan-Seigan Fault Zone, Northeast Japan
	石澤堯史	ポスター	How sand blows be identified as evidence of past earthquakes and used to evaluate seismic activity?
